

About your NHP membership

Choosing a Primary Care Provider or Site

When you become a member of Neighborhood Health Plan you must choose a Primary Care Provider (PCP) for yourself and each covered member of your family. This information is listed in the NHP Provider Directory.

For the most up-to-date Provider information, go to NHP's website at www.nhp.org, or call our Customer Care Center at 800-462-5449 or TTY 800-655-1761.

Your Primary Care Provider

Your PCP arranges your health care and is the first person you call when you need medical care.

Urgent Care

If you need urgent care, call your PCP to arrange where you will receive treatment. Examples of conditions requiring urgent care include, but are not limited to, fever, sore throat, earache and acute pain.

Emergency Care

In an emergency, go to the nearest emergency facility, or call 911, or your local emergency number. Please refer to your Benefit Summary for copayment amount. Your copayment is waived if you are admitted to the hospital.

All follow-up care must be arranged by your PCP. You, or someone on your behalf, should notify your PCP within 48 hours.

Customer Care Center

For questions or concerns about your NHP coverage, contact NHP's Customer Care Center at 800-462-5449 or TTY 800-655-1761, available Monday through Friday, 8:00 a.m.–6:00 p.m. (Thursday 8:00 a.m.–8:00 p.m.)

Utilization Management Program

The Utilization Management standards NHP uses were created to assure our members consistently receive high quality, appropriate medical care. To determine coverage, specific criteria is used to make Utilization Management decisions. This criteria is developed by physicians and meets the standards of national accreditation organizations. As new treatments and technologies become available, NHP updates its Utilization Management standards annually.

To make utilization decisions, NHP conducts, concurrent, and retrospective reviews of the health care services our members use.

Prospective Review

Determines if a procedure or treatment either you or your doctor is requesting is both medically appropriate and medically necessary.

Concurrent Review

During the course of treatment, such as hospitalization, concurrent review monitors the progress of treatment and determines for how long it will be deemed medically necessary.

Retrospective Review

After care has been provided, NHP reviews treatment outcomes to ensure that the health care services provided to you met certain quality standards.

Care Management

When members have a severe or chronic illness or condition, they may qualify for Care Management. NHP's care managers work one-on-one with members and their providers to find the most appropriate and cost-effective ways to manage a condition. Together, a treatment plan that best meets the member's needs is developed with the goal of promoting patient education, self-care, and providing access to the right kinds of health care services and options.

By completing the Health Needs Assessment that every new NHP member receives as part of their member kit, our care managers can identify any potential unmet needs that may benefit by care management assistance. Care managers then reach out to the member to see if they would be interested in joining one of our care management programs.

To learn more about Utilization Management or Care Management at NHP, please refer to your NHP Member Handbook or contact our Customer Care Center at 800-462-5449.
